

ALEXANDER (XANDER) DEMPSTER

(203) 727-7994 | afd5854@psu.edu | linkedin.com/in/xanderdempster/

EDUCATION

The Pennsylvania State University, College of Information Sciences and Technology
Bachelors of Science, Cybersecurity Analytics and Operations, GPA: 3.5

May 2027

SKILLS

- Networking & Security Fundamentals
- Penetration Testing (Active Coursework)
- Security Policy, Compliance & GRC
- Python (Scripting, Automation, API Integration)
- Java (OOP, GUI Development, Debugging)
- SQL - MySQL & SQLite
- Bash / Shell Scripting
- Access Controls & Data Integrity
- Wireshark (Network Traffic Analysis)

PROJECTS

Onestep iOS App (Swift, Swift UI, Family Controls API)

January 2026–Present

Solo Developer

- Engineered native iOS app using Family Controls and SwiftData to enforce screen time blocking through friction-based unlock challenges.
- Resolved complex SwiftData state-management and data-persistence bugs through systematic debugging and version control.
- Pivoted from NFC to timer-based unlocking after beta testing; engineered settings lock to prevent circumvention.

M.B.A.S. - Morning Briefing Automation System (Python, Bash, JavaScript)

March 2026–May 2026

Developer & Designer

- Built a fully automated macOS morning briefing system using launched scheduling, bash orchestration, and Python.
- Integrated Google Calendar API via OAuth 2.0 and Open-Meteo REST API into a custom HTML/CSS/JS dashboard.
- Implemented automated text-to-speech personalization using macOS native neural voice engine via launched daemon.

MountSQL Hospital Database System

November 2025–January 2026

Architect & Lead Developer

- Designed a normalized relational database in MySQL to modernize hospital recordkeeping across departments, physicians, patients, and procedures.
- Modeled complex entity relationships including many-to-many associations using junction tables for physician training, nurse scheduling, and patient prescriptions.
- Developed an ER diagram and full schema with 10+ interrelated tables, enabling efficient querying of medical records, appointment history, and procedure tracking.

WORK EXPERIENCE

Silver Spring Country Club

May 2025–August 2025

Aquatics Director

- Performed two water rescues as lifeguard; promoted to Aquatics Director within 4 weeks.
- Directed aquatics operations for 24 lifeguards, overseeing scheduling, safety-protocol enforcement, and performance monitoring.
- Resolved member check-in/access and Wi-Fi/internet issues, handling inquiries to maintain reliable service.

ActionJ Productions

May 2023–August 2025

Technical Operations Assistant

- Administered digital asset systems and access controls for 1000+ files, ensuring data integrity.
- Improved file-organization workflows, reducing retrieval time by 30% and cutting inefficiencies throughout production pipelines.
- Monitored system performance and resolved technical issues, reducing downtime by 20% across production.

VOLUNTEER EXPERIENCE

Chi Phi Fraternity, Penn State University

February 2024–Present

Secretary & THON Fundraising

- Coordinated fraternity participation in THON, helping with fundraising strategy, outreach initiatives, and event planning to maximize engagement and donations.
- Managed chapter records and communication while fostering collaboration among members to support philanthropy and community service efforts.

Warrior Basketball League

October 2022–February 2023

Youth Head Coach

- Mentored youth basketball players, fostering leadership, teamwork, and sportsmanship.
- Cultivated an inclusive team culture that emphasized empathy, respect, and civic responsibility.
